

Improved aesthetics | energy savings | increased comfort | uv protection

MADICO

RESIDENTIAL WINDOW FILMS

Protect your valued belongings.

Enhance the comfort and
efficiency of your home.

With Madico Window Films.

In your home, year after year, the sun's UV rays cause colors to fade, fabrics to fray, woods to crack. The damage to your furnishings, floorings and artwork gets worse over time, and can never be reversed. But it can be significantly reduced. Just apply Madico Window Films. They block 99% of those harmful UV rays, saving you thousands of dollars in potential sun damage, while helping to preserve the beauty of your home – and your valued possessions – for as long as you own them.

Block heat, cut glare, save money.

Madico Window Films improve the comfort of your home in all seasons. By blocking heat and reducing glare caused by direct sunlight, they enable you to control your home's climate more efficiently. As a result, our films can help reduce air conditioning costs in summer and heating costs in winter. This does more than save you money on utility bills; conserving all that energy helps the environment too.

A cost-effective solution, and manufacturer's warranty.

Madico Window Films cost less than you may think. They look great, are long lasting and are guaranteed for as long as you own your home.* Madico Window Films are also scratch resistant, so caring for them is a breeze. Another benefit: they help to hold glass together in case of accidents or natural disasters, increasing your family's safety. Ask your Madico dealer to help you choose a natural tone window film that best fits your home. And make your living environment more beautiful, more comfortable and more energy-efficient than ever before.

**Please consult your dealer for detailed warranty information.*

MADICO WINDOW FILMS HELP BLOCK THE UV RAYS THAT DAMAGE YOUR POSSESSIONS WHILE REDUCING GLARE.

MADICO
ISO 9001: 2000 Certified

WHEREVER THERE IS GLASS, WE CAN *improve* IT.

Founded in 1903, Madico has established itself as one of the world's foremost providers of glass films for the widest array of applications: safety and security, energy control, anti-intrusion/anti-vandalism, and view control. The company's commitment to glass film innovation has earned recognition from such esteemed organizations as the Protecting People First Foundation, while Madico's dedication to responsible testing has helped it earn certifications from Factory Mutual, Underwriters Laboratories and other reputable agencies.
