MADICO

SAFETY & SECURITY WINDOW FILMS

Protect people and property
from flying glass.

Guard against burglary and vandalism.

With Madico Window Films.

MADICO PROTEKT SAFETY FILM

Madico Safety & Security Window Films help reduce the risk of personal injury, property damage and loss caused by natural disaster and crime. Available in a wide range of tints, styles and grades, our films are specially designed to deter everything from the high winds of hurricanes to the costly eyesore of graffiti. And we back every one of our enduring film solutions with a manufacturer's warranty that is second to none.

A high level of protection against natural disasters.

If you're not prepared for events like hurricanes, tornadoes and earthquakes, the consequences to people, property and equipment can be devastating. When windows give way, shards and debris can cause severe danger and damage – while exposing your building's interior to water, wind and other perils. Reduce the risk of damage and injury with Protekt® Film. This clear, strong film bonds to windows with a special adhesive, creating a tough barrier that helps keep glass together under the worst conditions nature can dish out. The world's most tested safety and security window films, our products meet and exceed more test

standards than any other, including the strict new Florida building code for hurricane mitigation. With our rigorous testing program, you can trust Madico Safety & Security Window Films to protect you from flying glass hazards.

Cost-effective protection against graffiti.

With our multi-ply Graffiti-Free™ Film on your windows, you won't need to replace glass that's been scratched or painted. In most cases you can simply replace the film – at a fraction of the cost. Specially designed for retail and commercial buildings, Graffiti-Free helps you keep windows clear and unmarked.

An extra layer of protection against theft.

Some Madico Safety & Security Window Films are designed to deter criminals from smash-and-grab theft. Our security films help

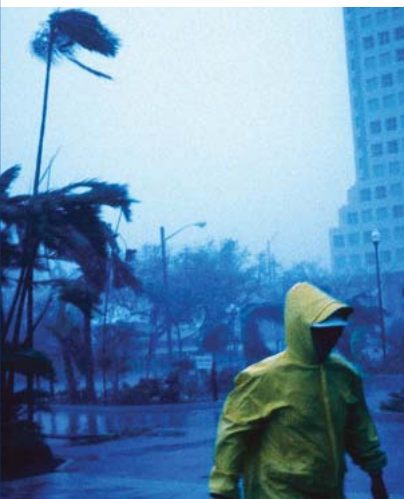

MADICO GRAFFITI-FREE FILM

to prevent glass from shattering when struck, creating an element of surprise to a potential thief. This also helps to prevent costly, disruptive damage to your property and merchandise.

Consult your Madico dealer today!

Madico offers a wide range of durable, long-lasting films, tested and proven in thousands of installations around the world, including the Smithsonian, the Louvre, New Scotland Yard and many other landmark structures. Trust our worldwide network of dealers and installers to help you determine which film is best for your building.

MADICO SAFETY FILMS CAN INCREASE THE STRENGTH OF ORDINARY PLATE GLASS. LABORATORY TESTS SHOW THAT MADICO'S LCL-800-XSR IMPROVES THE PERFORMANCE OF 1/4" PLATE GLASS, ALLOWING IT TO WITHSTAND >200 MPH WINDS.*

*Tested at American Testing Laboratories of South Florida 4/03

WHEREVER THERE IS GLASS, WE CAN *improve* IT.

Founded in 1903, Madico has established itself as one of the world's foremost providers of glass films for the widest array of applications: safety and security, energy control, anti-intrusion/anti-vandalism, and view control. The company's commitment to glass film innovation has earned recognition from such esteemed organizations as the Protecting People First Foundation, while Madico's dedication to responsible testing has helped it earn certifications from Factory Mutual, Underwriters Laboratories and other reputable agencies.
